WHY CHOOSE iPROMOTEu FOR ORDER FINANCING?

GET COMPLETE FINANCIAL BACKING

Large orders sometimes require a down payment from the supplier, and distributors may not always have the upfront cash flow to confidently take the sale. But regardless of your order size, as an iPROMOTEu Affiliate, we finance your orders and enable you to concentrate on selling and building relationships.

PROTECT BUSINESS CASH FLOW

Maintaining a healthy cash flow and avoiding financial disruptions are crucial to the well-being of your business. Our promotional products financing ensures your resources stay where they belong—within your business. Rather than being tied up in order deposits, these funds can be reserved for uncertain times or be redirected to critical areas such as marketing or expanding your workforce.

SKIP THE PAPERWORK

Credit applications are legally binding with terms and conditions that you must not only meet, but also manage. We'll handle the credit applications and related documentation, empowering you to concentrate on selling products and increasing your sales. iPROMOTEu assumes this risk so you don't have to worry about managing payment schedules, credit limits, or other details.

INCREASE CUSTOMER SATISFACTION

Customers prefer a seamless process during which they aren't burdened with the requirement of paying a deposit or prepayment for merchandise they haven't received yet. Our order financing eliminates the need for you to secure upfront funds from customers (solely to fulfill an order from a vendor), helping you avoid unwanted conversations. Instead, with iPROMOTEu, you'll strengthen relationships by providing a smooth and positive customer experience.
