TIME-SAVING TOOLS AND TECHNOLOGY FOR AFFILIATES

iSUITE ORDER MANAGEMENT SYSTEM

Use iSUITE for comprehensive management in every stage of the order lifecycle. This can range from crafting quotes and creating purchase orders to tracking orders in production and generating financial reports to measure sales and profit. iSUITE also provides an easy-to-use order grid for creating apparel orders, built-in access to ASI and SAGE product search tools, and advanced features like integration with several e-commerce platforms, and an inventory management module.

PROMO STANDARDS INTEGRATION

As part of our mission to keep you on the cutting edge, we've adopted Promo Standards, supporting integration between industry vendors and distributors. The Promo Standards initiative allows iSUITE to receive automated order status and inventory updates from leading vendors while also enabling EDI ordering from those vendors.

CUSTOMER RELATIONSHIP MANAGEMENT (CRM)

Affiliates gain access to a complimentary CRM, which enables you to improve customer service, increase retention, collect valuable sales metrics, and easily manage contacts.

AFFILIATE WEBZONE

This exclusive, password-protected website delivers content like marketing and training tools to help you make the most of iPROMOTEu's platform and services. As part of the WebZone, you'll also get specialized help from our Affiliate support services team.

CUSTOMER PORTAL

Make payments easy with the iPROMOTEu customer portal. Your customers can make payments, check order status, view new products, and request reorders with the convenient, web-based portal.
